

Platin flat rainwater tank

Less digging!
Less work!
Fewer costs!

How do you install a tank? I know!

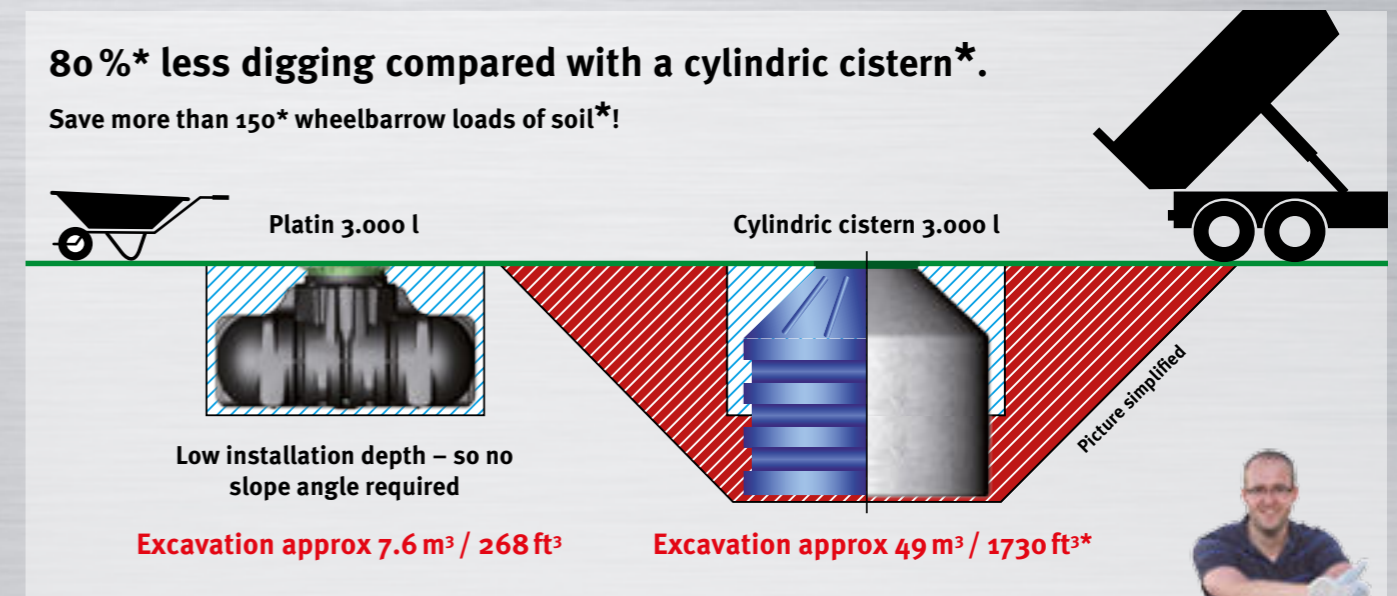

It's as easy as 1, 2, 3.

Less digging. Less work. Fewer costs.

Photos of installing the Platin 1.500 l flat tank are available from www.graf.info

„The Platin flat tank is easy to install. The completely flat pit and low tank weight make the work child's play. I was particularly impressed by the stability of the tank, the large tank dome and the professional, integrated filter technology. It's a solution which ticks all the boxes.“

Thomas Blum, landscape gardener

*Based on a vertical, cylindric cistern with a useable volume of 3.000 ltr, a height of 1,90 mtr and a diameter of 2,20 mtr. Calculation of excavation is under consideration of a ditch bottom of 10 cm, a sidewise distance of 50 cm and a slope with 45° gradient according to DIN 4124.

Platin flat tank

GRAF brand quality – try it for yourself!

- Minimum installation depth, which translates into short installation time and low costs
- Suitable for vehicle loading
- Groundwater stable

*Size 1.500 l

Flat tank Platin
Suitable for vehicle loading in conjunction with the Telescopic dome shaft with cast-iron lid (accessory)

1.500 Litres
(400 US gal.)
Order no. 390000

3.000 Litres
(800 US gal.)
Order no. 390001

5.000 Litres
(1,325 US gal.)
Order no. 390002

7.500 Litres
(1,980 US gal.)
Order no. 390005

Select your desired tank cover

Telescopic dome shaft Mini,
suitable for pedestrian loading
Order no. 371010

Telescopic dome shaft Maxi,
suitable for pedestrian loading
Order no. 371011

Telescopic dome shaft cast-iron,
suitable for vehicle loading
Order no. 371020

Water connection box Internal
Draw water directly from the Platin flat tank. Can be easily upgraded with the telescopic dome shaft Mini.
Order no. 375119

Select your desired tank filter package

Tank filter package for the garden

- 100% water yield
- Filter can be removed without any tools
- Best suited for downstream infiltration

Order no. 342026

Tank filter package for the house

- Self-cleaning filter technology
- More than 95% water yield
- Minimum maintenance

Order no. 342025

Accessory
Minimax cleaning unit without hose
Order no. 340040

Select your desired technical package

Technical package Garden Comfort
Order no. 342028

Technical package House Eco-Plus
Order no. 342029

Save up to 50 % of your drinking water needs – with GRAF's complete packages !

Use in the garden

Use in the home

Platin complete package Garden Comfort

- Draw water from the socket like electricity
- Simple installation thanks to integrated filter technology
- Water can be extracted using either an internal or external water connection box for standard watering systems
- Easy to assemble due to modular components
- Just one cover visible at the surface

Scope of supply:

- 1 Platin flat tank incl. 4 prefitted DN 100 (4") lip seals
- 2 Tank cover suitable for pedestrian or vehicle loading depending on the version
- 3 Tank filter package for the garden consisting of:
 - Internal filter basket incl. suspension
 - Overflow siphon with integrated rodent guard
- 4 Garden-Comfort technical package consisting of:
 - Integra stainless steel submersible and suction pump incl. floating extraction setup
 - 10m pressure hose 1"
 - Internal water connection box
 - External water connection box

Prices:

A price list with our export conditions is available on request.

Warranty clause:

The warranty mentioned in this brochure only refers to the tank in question and not to the accessories. Within the warranty period we grant free replacement of the material. Further benefits are excluded. Pre-condition for warranty benefits are proper handling, assembly and installation according to the mounting guidelines.

N.B. Protect tanks from frost when installed above ground! In case of groundwater installation, please contact us for further information prior to purchase!

For all dimensions and abstracts provided in this brochure, we reserve a tolerance of +/- 3%. Depending on the connection type, the useful volume of the underground tanks may be up to 10% below the tank capacity.

Subject to technical modifications and errors. Design details, methods and standards of individual products may change as a result of technical advancements and environmental regulations.

For all our offers and conclusions of contract, only our General Terms and Conditions of Business dated 01/10/2012 shall apply, which we will send to you on request.
